SAVING LIVES THROUGH RELIABLE AND INNOVATIVE TECHNOLOGY

B Medical Systems was founded in 1979 when Electrolux partnered with the World Health Organization to create a solution for the safe storage and transport of vaccines around the world. Since that time, B Medical has become a global leader in vaccine cold chain. For over 35 years, we've been innovating and creating technologies that save lives across the globe.

In 2015, B Medical Systems has been acquired by Navis, a private equity fund. To support our continuous growth, we recruit a dynamic, business and performance-driven professional for the position of

Hardware & Software Product Maintenance Support Engineer / Specialist (m / f) **Location: INDIA – Mumbai**

We are looking for a Hardware & Software Product Maintenance Support Engineer / Specialist to join our R&D department and participate in the support of B Medical Systems product portfolio.

Key Responsibilities:
