Partnering in your fight against Coronavirus

B Medical Systems is a leading manufacturer of medical devices with 40 years of industry experience in medical refrigeration. Our safe solutions can help you advance research in a new vaccine and therapies against COVID-19, by preserving the integrity of your valuable samples.

40+ MODELS

- Optimal temperature uniformity, stability, recovery, and hold over
- Audio-visual alarm systems with remote transmission
- Advance remote monitoring
- Lowest Total Cost of Ownership
- High-quality materials, incl. antibacterial coating

0.77 > 31.61 cu. ft.
2.2 L > 895 L
GROSS VOLUME

1097 > 9,964 L
MEDICAL FREEZERS
(-41°C > -20°C)

1321 > 11,909 cu. ft.
11,909 > 350,000 L
GROSS VOLUME

1200 > 26,000 cu. ft.
16,032 > 450,000 L
GROSS VOLUME

Rapid deployment of all product ranges

Installation services in 130+ countries

State-of-the-art manufacturing technology ensuring minimal production lead-time

Reliability

- Certified medical devices Class II (a) and I acc. to MDD 93/42/EEC and FDA 21 CFR
- Temperature reporting compliant with FDA 21 CFR Part 11
- Natural gas refrigerant conform to EU F-gas & SNAP regulations
- Compliance with USD 800 requirements and CDC guidelines

Choice

- Multiple volumes & storage temperatures
- Unique combo models
- Access control with badge or password
- Touchscreen display with all functionalities
- Adjustable alarm limits
- Customizable interior storage options

Compliance

- DIN 58371
- DIN 58375
- DIN 58345
- DIN 58381
- ISO 13485
- MDD 93/42/EEC
- FDA 21 CFR
- USP <800>
- WHO guidelines
- IATA DGR
- ADR
- IMDG
- ICAO-TI
- EPA

Choice
